

Keeping safe from Coronavirus

Here are the important facts and some help

What is it?

You might hear it called **Coronavirus** or **Covid 19** but these all mean the same thing - an illness caused by a virus which can make you very sick.

How can I stay safe?

Stay at home as much as possible.

Limit contact with other people

Stay 2 metres apart if you can.

Wash your hands as much as you can.

Avoid public transport as much as you can.

What are the symptoms?

New continuous cough.

Loss of smell or taste.

High Temperature.

If you or anybody in your home has symptoms or has a positive test **tell your school and stay at home.**

If you need help with
Coronavirus, ring the National
Health Service on **111**.

School and college

Why can more children go to school now?

School is the best place to **learn**.

School is good for children's **mental health**.

Children are **less likely** to be seriously ill than adults.

What are schools doing to manage risks?

Children will be put in **bubbles**, which do not mix with each other.

Schools will be **cleaned** more regularly than usual.

Everybody will **wash their hands** regularly.

Break and lunch times will be organised to keep pupils separate.

When and How can we go back to school and college?

Until September you will **not be fined** for not sending your children to school.

Speak to your school or college - each one has different arrangements and dates for opening.

If you do not send your child back to school, the school will **still give you work to do at home**.

Tell your school if your child will not be going back.
